POWER COMMANDER V

- Fuel control for each individual cylinder in a smaller enclosure
- "Warm up" fuel adjustment (unit reads engine temp and allows fuel/timing adjustments based on the reading)
- Reduced size from the PCIII USB
- Easy to install
- USB powered from computer; 9 volt adapter is no longer needed
- Two-position map switching function built-in
- Can add any Single Pole Single Throw (SPST) switch and toggle between two different fuel maps
- Gear/speed input allows for map adjustment based on gear
- Analog input allows user to install any 0-5 volt sensor
- Build an adjustment table based on analog input such as boost or temperature
- Power Commander V is capable of allowing each cylinder to be mapped individually and for each gear with the gear position input connected
- More tuning ranges than PCIII USB
- Enhanced "accel pump" utility
- Made in the U.S.A.

POWER COMMANDER V EX

- Offers virtually the same tuning functionality and installation ease as the Power Commander V line
- Meets and complies with all California Air Resources Board regulations
- Works with Dynojet patented Tuning Link Software
- Develops custom maps the same way as the PC-V version
- Load "race only" Power Commander models into the PC-V EX
- Automatically converts to the proper format

**R-77 E.P.A. NOISE-COMPLIANT SLIP-ON MUFFLERS
FOR SUZUKI GSX-R1000 12**

- Mufflers meet E.P.A. noise emissions requirements of 80 dB
- Installation of these mufflers will not violate Federal law
- Trapezoidal-shaped muffler sleeve maximizes exhaust gas flow volume
- Design maximizes torque and useable power for optimal gains through the entire powerband
- Innovative end cap design

MIRROR HOLE CAP KITS

- Hide those mirror holes on track days with these feather-weight beauties
- Caps are CNC machined from aircraft-grade aluminum
- Back sides are hollowed out and replaced with carbon fiber inserts to further reduce weight and give an attractive appearance from the front
- Available with an anodized black finish or polished aluminum with a clearcoat finish
- Include left and right mirror hole caps, installation hardware and detailed instructions

NOTE: Not DOT approved. Check with local laws and regulations prior to installation. Not intended for use on public highways.

150A ALTERNATOR FOR HONDA GL1800 00-12

- Maximum output of 150A is enough to power all available electrical accessories in the marketplace
- High-output replacement for 78A (00-08 models) and 110A (09-12 models) OEM alternators
- Assembled in the U.S.A. using only new premium components from leading electrical industry suppliers

SUG. RETAIL **\$499.95** **PART #** **2112-0834**

SPORT UTILITY CLUTCH KITS

- The best all-around use kit; if you do a bit of everything with an ATV/UTV this is the kit for you
- Great for trail riding, occasional mud and sand riding, plowing and hauling
- Makes up for power loss and slow response of adding oversized tires
- Designed to improve low- and mid-range acceleration
- Helps decrease belt slippage, which will decrease clutch heat
- Each kit will enhance back shifting and throttle response
- Field tested to assure satisfaction
- Designed for stock motor and exhaust
- Kit components vary by model and style of kit
- All kits are Sport Utility unless otherwise noted in chart

SAND DUNE KIT

- Designed and tested specifically for sand dune applications
- Helps hold peak power RPM when dune riding and climbing hills
- Better low end power and torque
- Quicker backshift which results in crisp throttle response

KIT FOR OVERSIZED/PADDLE TIRES

- Designed to work with aggressive (taller, wider, heavier) 27-28" tires or 27-28" paddle tires
- Pulls easier in tough conditions or in the mud
- May affect top end speed

MUDDER KITS

- Designed for machines with 28"-29.5" tires
- Allows for easier turning of larger tires in mud
- Better low end power and torque
- Not recommended for trail riding
- May affect top end speed

LOCK-ON GRIPS

- Redesigned Lock-On system to make it easier to install and provide more comfort
- By eliminating the outside clamp, the Lock-On system is ideal for riders who prefer to ride on the outside edge of their grips
- Also ideal for riders who prefer to run rubber ends as opposed to end plugs
- The heavy-duty clamp on the inside of the clutch is strong enough to hold your grip in place without any twisting or slipping
- On the throttle side, choose the applicable 2- or 4-stroke throttle cam, snap into place and replace as you would your throttle tube and you are ready to ride
- Revolutionary system survives the most severe weather
- Installation and removal is easy and will not destroy your grips
- Core plastic has a punch-out skeleton system to allow for the installation of handguards
- Necessary cams are included with each set of grips
- Grip length is 117mm
- Made in the U.S.A.
