RACE TEAM GRAPHIC KITS

- Get the complete N-Style look with matching tank/shroud graphics, number plate background and seat covers
- Graphics are made of durable 15-mil PVC vinyl with a smooth, clean design
- Includes seat cover, number plate background, tank/shroud graphics plus trim kit with fender, swingarm and fork graphics

SUG. RETAIL ................................ $199.95
FENDER ELIMINATOR KITS

- Eliminates the rear fender to give your bike a cleaner race-style look.
- Quality, all-stainless-steel kits move the turn signals up and in and relocate the license plate light on most models.
- Aftermarket signals included as listed; license plate light supplied when needed.
- Storage area is kept as stock as possible.
- Hardware and instructions for easy installation.
- Some cutting and drilling may be necessary on some models, but only to the black plastic fender, never the frame or bodywork.
- Made in the U.S.A.

FITS MODEL | INC. TURN SIGNALS | PART # | SUG. RETAIL
--- | --- | --- | ---
Ducati 11 | N | 2030-0624 | $109.95
Kawasaki | | 2030-0623 | 120.95

1 Includes LED license plate kit.
2 For stock exhaust only.

FLEX BRAKE LEVERS

- Adjustable for hand size and spring loaded to move on impact, preventing damage.
- A ball bearing is used at the contact point with the master cylinder piston for smooth action.
- A matching sleeve and bolt are supplied to eliminate up-and-down play.
- Part # 1020-1706.

SUG. RETAIL ............... $74.95

HIGH-FLOW OEM REPLACEMENT AIR FILTER

For Triumph Tiger

- Designed to increase horsepower and torque.
- Pleated design provides increased airflow and high filtration.
- Original K&N High-Flow Technology.
- Application specific sealing bead ensures an air-tight fit.
- Epoxy coated aluminum backfire screen protects filter element.
- Made in the U.S.A. for over 40 years.

SUG. RETAIL ................ $72.95

PART # 1011-2867

DYNATEK 3000/FS FUEL AND IGNITION MODULES

- Combines both fuel and ignition tuning in one device.
- PC programmable fuel and ignition maps with two switch map switching functions.
- Gear position input and analog input for 0-5 volt input for boost mapping.
- Mapping for individual cylinders.
- Fuel adjustment range of -100/+250%.
- Can be used with Power Commander maps.
- Self tuning when used with the DynaTune autotune kit.
- Equipped with factory connectors for easy installation.

SUG. RETAIL ............. $399.95

PART # 2101-0302

DIRT BIKES

SUG. RETAIL ............... $399.95

PART # 2101-0312

ATV

SUG. RETAIL ............... $399.95

PART # 2101-0301

DYNATUNE KIT

- By installing the included Wide Band O2 sensor in the exhaust the DynaTune kit monitors the fuel mixture.
- Sends information to Dynatek control module.
- Then automatically correcting it as you ride.
- Rider can feel the changes as they occur.
- Each map has preset air/fuel ratio target values.
- Allows the DynaTune to find the best overall settings.
- For more advanced users the air/fuel ratios are fully adjustable from the baseline.
- Each throttle opening/rpm combination is fully adjustable.
- Allows the riders fuel economy and peak output at larger throttle openings.
- Configurable to run and make adjustments at all times or by using the “map switch port” on the Dynatek control module.
- Switch back and forth between the tuning mode and the base map settings.
- Also allows rider to configure the kit to wait until the bike/ATV is at a certain operating temperature before beginning to make adjustments.
- Part # 2102-1706 includes a single Wide Band O2 sensor.
- Part # 2102-1707 includes two Wide Band O2 sensors and is designed for twin cylinder motorcycles/ATVs that use the DynaTune 300 or DynaTune FS allowing control of two cylinders simultaneously.

**Turf Tamer Classic**

- The ITP Turf Tamer Classic returns in two models, both utilize a strong, lightweight, 2-ply carcass.
- Re-engineered to accommodate the characteristics of most 4-stroke sport quad models.
- Proven dimpled knob design and advanced tread compound delivers exceptional traction and longevity.
- Unmatched durability, handling, and ride.

**Turf Tamer Classic MX**

- With the same features as the Turf Tamer Classic, and also features pre-grooved tread – an industry first.
- Provides an extra degree or performance on loose, loamy track surfaces.

---

**Blackwater Evolution**

- Specifically designed for the distinct demands of the latest side-by-side vehicles.
- Unique non-directional tread design provides traction while maintaining smooth, precise and balanced handling.
- All new “tough tread” rubber compound offers exceptional wear and abrasion resistance for extended life.
- Exclusive Sidewall Armor™ protects the vulnerable shoulder area from penetration – increasing reliability.
- 6-ply rated radial tire.
- Engineered and manufactured in the U.S.A.

---

**Mayhem Super Aggressive Mud/Trail ATV/UTV Tires**

- The nastiest, most aggressive mud/trail tire ever unleashed by ITP.
- Deep-lug tread pattern with an intimidating look; tears through mud holes and handles well on hard trails.
- Lightweight carcass construction for improved comfort and handling.
- Delivers tremendous bite for exceptional acceleration and braking.
- Balanced cornering qualities.
- Built to last with extended-wear rubber compound and 6-ply rating.
- Attention-grabbing, embossed tribal artwork.

---

**Blackwater Evolution Rear/Front**

**Blackwater Evolution Rear/Front**

**Mayhem Front/Rear**

**Mega Mayhem Rear/Front**

---

**Mega Mayhem**

- Taller, brawnier version of the original Mayhem.
- Features an aggressive 1.5-inch deep lug.
- Delivers tremendous bite for exceptional acceleration and braking.
- Balanced cornering qualities.
- Built to last with extended-wear rubber compound and 6-ply rating.
- Attention-grabbing, embossed tribal artwork.

- **NOTES:**
  1. Must use ITP lug nut; stock lug nut will not work.
  2. ITP wheels can make Can Am Renegade 2" wider than OEM per side.
  3. Must use ITP lug nut PART #0223-0089; OEM lug nut will not work.
N104 N-COM MODULAR

- Produced in two outer shell sizes of injected polycarbonate GE Lexan, keeping the helmet's weight to a minimum and proportionate to the rider's size; the dimensionally correct sizing allows ample cubic volume in the chin/nose area
- Innovative ventilation system is also equipped with an air intake in the chin guard, an air intake in the frontal area and two rear extractors recycling air inside the helmet
- Includes internal Sunscreen – short dark shield mounted on inside of the shell and moving independently from the clear shield with external operation
- Also equipped with an included Pinlock anti-fog visor with silicone-sealed profile and the anti-fog insert
- The chin guard in Lexan® face shield with optical trajectory keeps the total size of the helmet's front section to a minimum, when the chin guard is open and the "sail" effect is highly reduced and riding comfort is still guaranteed, even when the chin guard is lifted
- The exclusive dual-action chin guard opening system is positioned in the center of the chin guard, allowing for easy, one-handed opening
- Equipped with the new Microlock2 system, which consists of a plastic ergonomic opening lever and a second aluminum toothed and holding lever that releases the micrometred strip – the chin strap can only be opened with a very broad rotation of the opening lever
- Inner padding is easily removable, washable, anti-microbial and is made of highly breathable, soft and fresh fabrics
- The shape of the inner comfort padding facilitates eyeglass wearing and the reflective insert at the center of the removable roll neck further improves the rider's visibility at night
- Eyeport is the largest of any Nolan, both vertically and laterally, increasing safety by providing superior vision
- Helmet is N-COM ready; by purchasing and installing Nolan’s N-COM system, the helmet will be capable of connecting to an MP3 player, CD, GPS navigation system or cellular phone and allow driver-to-passenger communication or bike-to-bike communication through cable or wireless Bluetooth
- Outlaw replaces the standard Nolan badging with a small chrome insignia
- DOT certified

SUG. RETAIL .................. $454.95

SUG. RETAIL .................. $494.95

N90 N-COM MODULAR

- Aerodynamic polycarbonate shell with built-in spoiler for improved stability and reduced drag
- Efficient venting system utilizes dual top vents, chin bar vents and exhaust grid in the rear spoiler
- VPS internal screen is a short, dark, scratch-resistant, fog-resistant shield mounted on the inside of the shell that moves independently from the clear shield using a slider on the left side of the helmet; easily removable for cleaning or replacement
- UV400 anti-scratch Lexan® face shield is optically correct and allows quick changes with the push of a button, accepts included anti-fog inserts
- Rotating chin bar features steel-on-steel, Centromatic locking system with a redundant latch that makes it more secure and easy to use
- Fully removable and machine-washable Clima-Comfort liner and sanitized, anti-microbial interior
- Extra-large neck roll aids in wind noise reduction
- Quick-release, micro-adjustable chin retention system with velour chin-strap padding
- Chin curtain included and installed
- Reflective panels on back of liner and chin curtain
- Helmet is N-COM ready; by purchasing and installing Nolan’s N-COM system, the helmet will be capable of connecting to an MP3 player, CD, GPS navigation system or cellular phone and allow driver-to-passenger communication or bike-to-bike communication through cable or wireless Bluetooth
- DOT certified

SUG. RETAIL .................. $349.95
**N43ET TRILOGY N-COM**

- Crossover design with quick-change accessories allows for customized look and functions for every ride.
- Includes clear shield, integrated sun shield, peak and removable chin bar.
- Internal sunscreen – short dark shield mounted on inside of the shell and moving independently from the clear shield with external operation.
- Quick-change shield is optically correct and fitted in an exceptionally large eyeport; accepts Pinlock® antifog insert (sold separately).
- Top vent with rear exhaust grid, and shield vent.
- CE Lexan® chin bar is EPS lined; mounted with stainless-steel latches, it passes the test for full-face helmets of the European standard ECE-2205.
- Fully removable and washable interior on snaps and tabs is antibacterial, antifungal, and wicking.
- Microlock® adjustable quick-release retention system.
- Helmet is N-COM ready; by purchasing and installing Nolan’s N-COM system, the helmet will be capable of connecting to an MP3 player, CD, GPS navigation system or cellular phone and allow driver-to-passenger communication or bike-to-bike communication through cable or wireless Bluetooth.
- Outlaw replaces the standard Nolan badging with a small chrome insignia.

### PRO-SERIES SPONSOR KITS
- Extensively tested and designed to deliver a higher top speed, smoother ride, better handling and straight-line stability.
- Backing plate design features a low pressure, low friction concept that breaks up drag from the sponson backing plate channel.
- Sponson blades' fins have staggered water trapping areas to pick up less water in the front and more in the rear to greatly reduce chine walk while in high speed corners and add more rear grip.
- High-end recreational/race setting delivers enough grip for the best of riders.

**SUG. RETAIL ............. $409.95**

### AQUAVEIN INTAKE GRATES
- Maximize water flow and pump efficiency.
- No more slow acceleration, bouncing, sliding, rough turning or mediocore top-end.
- Patented dual-wing technology feeds water into the pump's entryway so air won't get trapped in the pump and cause cavitation.
- Deep side rails help channel water and force-feed the wing area while turning.
- Great for managing rough water conditions.
- Stability, handling, cornering and acceleration are all dramatically improved.

**SUG. RETAIL ............. $160.95**

### 2.5° ADJUSTABLE TRIM WEDGE KIT
- Designed, developed and tested extensively in all types of flat and rough water conditions to ensure there would be no compromises.
- Better handling everywhere and provide a boost of up to 1 mph in top speed performance.
- The billet aluminum CNC-machined 2.5 degree reduction nozzle wedge kit was specifically designed to work with the OEM O.P.A.S. and Sea-Doo VTS systems.
- Comes complete with the necessary adjustable billet VTS trim rod and billet steering cable extender.

**SUG. RETAIL ............. $205.95**

### PRO-SERIES RIDE PLATE
- All the advantages of a Speed Plate, but designed for newer, high-performance, high-speed watercraft.
- One of the best bolt-on performance upgrades for watercraft.
- Improve handling, stability and control for recreational riders and racers alike.
- Eliminate porpoising.
- Improve straight-line performance.
- R&D tests their plates to perform far beyond the limits of even the newest breed of high-performance watercraft.

**SUG. RETAIL ............. $269.95**

### 1° ADJUSTABLE TRIM WEDGE KIT
- Developed to wedge the reduction nozzle up 1° to reduce hunting or bow searching at top speeds.
- Increases straight-line stability and will add a +1 mph top speed gain.
- Works excellently with RXP-X’s OEM steering nozzle, VTS Trim, O.P.A.S. system and retains the use of stock reverse gate.

**SUG. RETAIL ............. $205.95**

### PUMP SHOE SEAL KITS
- Comes complete with individually molded cavity plugs designed to fill large cavity air pockets in the OEM pump shoe.
- Once installed and sealed, pump cavity will be 100% free of air pockets or leaks which reduces cavitation while increasing pump efficiency and performance.

**SUG. RETAIL ............. $73.95**

### ANTI-CAVITATION CONE
- Balances bowl pressure in last stage of the pump to eliminate detectable cavitation.
- Improves bottom-end punch, mid-range pull and overall performance.

**SUG. RETAIL ............. $105.95**
